stook@bnin.net

Top five most significant judging experiences:

- North American Livestock Expo
- Maryland State Fair
- Kentucky State Fair
- Numerous County Fairs
- Officiating Judging Contest

Jeff Stookey of Milford Indiana milks a registered herd of Holstein and Jersey cows with his wife of 32 years Marla. His children and their spouse all help out on the family farm. Jeff is a 7th generation dairy farmer whose passion for the dairy industry started at a very young age. He worked side by side with his father John Stookey on the family farm. It is from these experiences that he developed the love for the industry.. While working on the farm he also started fitting cattle from 1977-1993. Jeff has a true eye for animals. While on the road working he would buy animals. He loves picking one out of a herd of cattle and making her into a winning animal. This combined with his quality base herd has allowed his genetics in his herd to excel. He had 47 All Indiana's from 1998 - 2016 with 24 reserves from the same time period. He has not only exhibited animals across the US but also judged many different fairs.
