

**Order ear tags online at www.myholstein.com
or by calling Holstein Association USA
Customer Service at 800.952.5200**

Holstein Association USA's Tag ID Program provides a simple, efficient, and cost-effective solution for animal identification. To meet Tag ID rules for Holstein registration, two tags are required, one in each ear. Allflex tags are tamper-proof, fade resistant, and customizable. Ear tags include official 840 numbers. To order official 840 tags, USDA requires a premises identification number. Premises identification numbers can be obtained from your State Department of Agriculture.

Inventory Tags

Inventory tags refer to the tags you have on hand before the calves are even born. They may include a single official 840 tag for each calf, or tag combination. The official 840 tag includes several distinguishing characteristics. It will include the US shield, the UNLAWFUL TO REMOVE statement and the full 15-digit 840 number. No customization is allowed on the Official 840 tag. The 840 number printed on the inventory tags will be used as the calf's registration number.

Tag & TSU Combinations

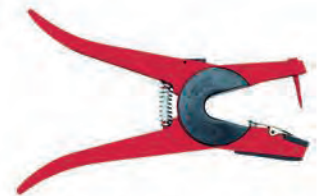

Tag combinations can be ordered for added convenience. When ordered as a tag combination, the matching tags are nested together in the same packing tray, for easy application when tagging the newborn calf. For customers that genomic test their calves, many tag combinations can be ordered with a tissue sampling unit (TSU). The TSU comes nested in the packing tray with the ear tags. When ordered as a Tag and TSU combination, the herd management number from the ear tag is also printed on the TSU tube for easy identification of the genetic sample.

Individual Custom Tags

Additional custom text can be added to secondary tags, which is unique to each calf. Secondary Large or Maxi tags can be customized. Large tags can include one custom line of information, Maxi tags can include one or two lines of custom information. Choose from a variety of custom options, including calf barn name, date of birth, dam name or number, or sire short name. Individual custom tags must be ordered through EASY ID at the time of registration.
